

VBCore CANFD HAT Quick connect v1.0

An adapter board for the VBCores CAN-FD HAT, featuring a fused power line with a switch and quick-connect terminals.

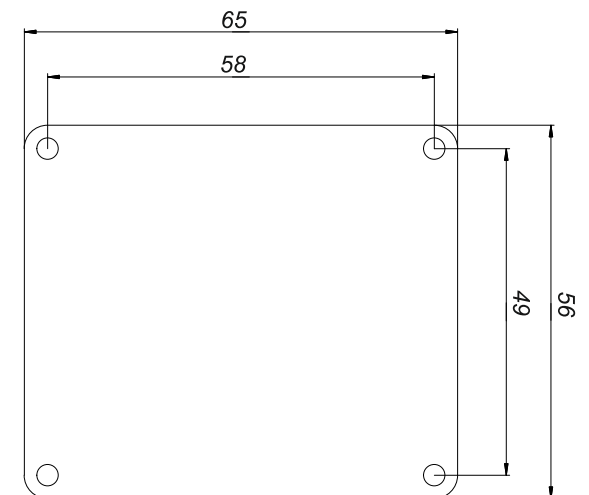

External OUT Switch control

For external power control, set the rocker switch to ON. Subsequently, the board can be turned off by applying a logic low (GND) to the control pin, or turned on by applying a logic high (3.3V to 5V).

The two CAN buses are simple interconnected connectors with no additional load.
